INFORMATION
BULLETIN
103
August 2003

Separate Building, Electrical, Mechanical, Plumbing and Gas permits are required for all commercial and multi-family construction.

These miscellaneous permits can be obtained at the same time the building permit is issued by completing the Worksheets on the next three pages of this information bulletin. When a building permit is not being issued, Mechanical, Plumbing and Gas, and Electrical Permits are issued at:

- A. **Development Services Center**, 1222 First Avenue, (619) 446-5000.
Also by mail at the above address or by FAX using a Visa or Mastercard.
Phone (619) 446-5350 for further information.
- B. **Online**, using a Visa or MasterCard, at
www.sandiego.gov/development-services/industry/simplepermits.shtml
- C. **Inspection Services Office**, 9601 Ridgehaven Court, Suite 220,
(858) 492-5070. (Payment by check only)
- D. **Community Service Centers**. Call (619) 236-5555 for Community
Service Center locations.

Call (858) 581-7111 to schedule inspections (minimum rough and final inspection). If excessive inspections are required, fees assessed by the inspector will be at a rate of \$90.00 per reinspection.

Some electrical, mechanical, and plumbing permits will require plan review. All of the mechanical fees on page 4 noted with an asterisk at the beginning require a review. If there isn't an associated building permit application, the Stand-Alone Plan Check Fee will be assessed at the rate of \$130.00 per hour.

Administrative Fees: Administrative fees must be selected for each miscellaneous permit request. The type of Administrative Fee that should be selected is based on the type of project as well as the number of stories where the work is taking place. If the project is a single story remodel of an existing building or space, the fee is \$45. Base First Story (\$135) must be selected if the project is new construction.

Issuance Fee: An issuance fee will be charged each time a new permit is requested **and** when items are being added to an existing permit.

IMPORTANT NOTICE

Tenant Improvement Permits are Building Permits Only.

After you receive plumbing, electrical, and mechanical review stamps on your building permit, please remember to obtain the required separate plumbing, electrical, and mechanical permits. Please see the fee schedules and worksheets on the next three pages of this information bulletin.

This information is available in alternative formats for persons with disabilities.
